

The all-in-one spend solution for modern finance teams.

Manual finance workflows are slowing your team down. That's where Weel steps in:

Stationery

Available Budget Limit
\$250.00 AUD

AB JB DB

Real-time expense management

Know exactly what's spent, where it's going, and how to optimise budgets - in real-time.

Issue corporate cards your team won't outgrow

No more shared cards or rogue spend. Instantly issue virtual cards with built-in controls, custom limits, and full visibility.

Automate your accounts payable

Weel lets you upload, approve, and pay invoices in one place - with every step tracked and automated.

Receipts without the chase

Employees snap and submit receipts in seconds, with reminders so you don't have to follow up.

Sync every transaction into your accounting software

No downloads. No double entry. Weel syncs every transaction automatically, so month-end takes minutes, not days.

Great finance teams don't work harder, they work smarter. We'll show you how.
